

# Tin Can Transformation Workshop

Place: Ganja, Azerbaijan

Date: 10-05-2024

Budget: About 100-150\$

Mode: Face to face

Target group: Intended Group: Everyone, notably families, nature lovers and individuals concerned about the environment..

Collaboration: Yes

Goals: Goal: Adding value to trash to scarecrows for functional and ornamental gardens helps in promoting creativity as well as sustainability.

Resources: Materials Required: Old clothes, straw, wood scraps, fabric scraps, paint, paint brushes, glue, scissors, magic markers, and other reusable materials that can be used for decoration of the scarecrows. Follow-Up: - Send thank-you emails to participants and volunteers. - Share photos and highlights from the event on social media and local newsletters. - Consider organizing follow-up workshops or events to continue promoting upcycling and sustainability.

Dissemination: - Create event flyers and posters with colorful upcycled scarecrow images. - Utilize social media platforms to spread the word and engage the community. - Partner with local gardening clubs, schools, and environmental organizations for wider outreach. Collect feedback from participants to gauge event satisfaction and identify areas for improvement. - Measure the number of scarecrows created and the amount of waste diverted from landfills. - Assess the event's impact on raising awareness about upcycling and environmental stewardship.

Brief description: Event Overview: Join us for a fun and creative workshop where you'll learn how to transform ordinary tin cans into beautiful and functional objects for your home and garden. This event aims to promote sustainability by repurposing everyday items and reducing waste. 4. Goal: Adding value to trash to scarecrows for

functional and ornamental gardens helps in promoting creativity as well as sustainability.
